Professional Equipment for Snow and Ice

CHAINS ATTRACTION

RUD snow chain system have a tradition that goes back over 100 years. We know exactly what a wide range of demands our chains need to comply with. Situations that demand everything there is from a chain call for the best possible material qualities.

The further development of our "SnowHow" has lead to a wide variety of innovative solutions which lead to a higher drive quality and to more safety for both people and vehicles.

Our premium brands are setting standards in terms of quality, personal advice, service and ingenious ease of handling.

Tradition in Leadership.

TAKE CARE –
TAKE RUD!

Shoe chains made from high-grade steel with profiled chain links for exceptional grip

BERGSTEIGER

QUICKSTEP

Major components of RUD chains are objects of German and European patents. RUD was the first chain factory to gain the TÜV CERT certificate under DIN EN ISO 9001 for its company management system.

RUD-matic chain

Especially useful for rear-wheel drives: The Matic fitting system with its pulley system.

RUD-profi drive-on chain

From pros for pros: professional fitting. Proven around the world, and perfected for rough winter usage.

From Pros for Pros – The Fitting Systems

POWER, DYNAMIC, SECURITY... CHAINS FOR SNOW AND ICE

RUD-matic MAXI

and RUD-matic SuperSingle Maxi

Our high-traction chain – for trucks and buses

- Twice as economical thanks to its dense, reversible chain mesh.
- Twice as many grip elements and twice as many track guiding parts
- Spring steel hoop chain for virtually automatic fitting and removal
- Rounded grip elements are kind to tyres
- Welded, movable grip links

RUD-matic CLASSIC V

Our signature product – for light and medium-duty utility vehicles

- Comfort hoop chain for rapid fitting and removal even for narrow wheel arches
- Reversible chain mesh
- Chromium-manganese alloyed fine-grain steel
- Phenomenal test results in terms of traction, durability, tracking, braking distance and smoothness of running

RUD-profi BISON

Long-distance runner for extremely difficult off-road usage and most extreme winter service.

- Special high-traction and high-power chain
- Very dense chain mesh for maximum grip
- Extremely high wear resistance and fracture toughness
- Grip links ensure very good traction
- Excellent lifespan
- Chain mesh that can be used on both sides

RUD-profi PROFIL-GREIFSTEG

For difficult and deep terrain in woods or snow.

- Diamond pattern dense mesh for maximum grip
- With extremely high wear resistance and fracture toughness
- Specially developed profiled grip links ensure maximum traction
- Excellent lifespan

RUD-profi SUPER-GREIFSTEG

Powerful traction on packed-down, smooth snow and bare ice.

- Dense and continuous "Kantenspur" chain mesh as a byword for maximum grip, smooth running, long mileage, & utmost tyre care
- Rapid fitting
- Chain mesh that can be used on both sides
- Break-resistant round steel chain links

RUD-profi ALLIGATOR

For snow removal and forest operations.

- High-grip square links
- Especially smooth running
- Reversible
(can be used on both sides)

RUD-profi GREIFSTEG and GREIFSTEG TWIN

Intelligent chain technology against winter hazards.

- Additional grip links with specially-shaped grip profile increase the traction and care for tyres
- Compact chain mesh links improve break resistance and smoothness of running
- Higher wear resistance
- Economical thanks to the long-life chain mesh that can be used on both sides
- Crown-welded, movable grip links

RUD-profi CORTINA

A long-life chain for normal and medium-duty applications

- Can also endure heavier-duty applications
- A "second life" thanks to reversible chain mesh
- Space-saving
- Light and simple to fit/remove
- Long lifespan
- High break resistance

RUD-profi LIGHT

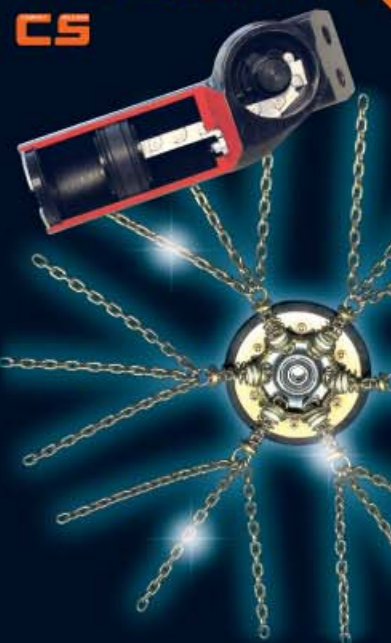

A simple chain for light and normal applications.

- Light and simple to fit/remove
- Reversible chain mesh
(can be used on both sides)
- Ideal for "small equipment"
- Low weight
- Powerful traction

RUD- ROTOGRIP CS

New!

ROTOGRIP Compact Solution – new developed for vehicles with limited mounting space.

- Compact, forged steel, swivel housing
- Integrated, patented, "flexible piston rod"
- Increased swivel area

Safety at the press of a button.
